## EMPLOYMENT & EDUCATION

### MPC - Software Technical Director

MAY 2022 - PRESENT

Nuke focused TD (Nuke, Nuke Studio, Python, Git, RV, Jira, Confluence)

TD working with all aspects of the VFX pipeline. Nuke development & support focused.

Tasks include:

- Development using python. Code reviews, maintaining and improving existing tools
- Development for Nuke using the Nuke python API
- Cross show and cross site support, bug fixing and troubleshooting work in production

Notable Projects:

- Custom Nuke Studio image transcoder improvements and audio export additions
- Nuke Studio ingest workflow enhancements
- Multiple tool improvements including: Auto-comp, stereo dailies, Katana camera selection

### The Foundry - Quality Assurance Engineer

MAR 2020 - MAY 2022

Quality assurance (Nuke, Nuke Studio, Hiero, Python, Git, Confluence)

QA on the Nuke team. Working with all products, Studio, Hiero, Nuke but focusing on the timeline tools.

Tasks include:

- Manual artist workflow testing
- Autotest creation and documentation using Python, unittest, Nuke API and confluence
- Autotest failure investigation and resolution. Bug discovery, regression testing, logging and triaging

Notable Projects:

- Monitor Out implementation, improvement and unification between Nuke Studio and Nuke
- Open Colour IO (OCIO) and ACES upgrades including HDR and colour theory
- Planning and managing the overhaul and improvement of in-house artist workflow test plans
- Python and C++ training

### Double Negative / DNEG - Technical Resource Assistant

JUL 2018 - MAR 2020

Technical resource management (Jira, Linux command line, Python, G Sheets)

Technical resource management of DNEG London's tech assets working closely with tech and editorial.

Tasks include:

- End of show clean up and archival. Restoration of archived data
- Server space management, moving shows/shots, clearing/archiving non-essential data
- Assisting the Technical Resource Manager with more advanced systems such as the render farm

Notable Projects:

- Wrote a multitude of small python tools with documentation to automate repetitive tasks
- Assisted in the creation of a database to track all of DNEG London's workstations/portable drives
- Overhauled the organisation of 20,000+ LT05 archival tapes and later co-ordinated off-site storage

### Double Negative / DNEG - Head Runner & 2D Training In Roto

NOV 2017 - JUL 2018

Head of the facilities runners while training (Jira, G Sheets, Nuke)

### Bournemouth University - PAL (Peer Assisted Learning) Leader

SEP 2014 - JUN 2015

While in 2nd year, assisting 1st year students (Nuke, Maya)
